## ABOUT ME

I'm a front-end developer with a strong grip on HTML, CSS, JavaScript, React, Tailwind CSS, Bootstrap, and Redux. I enjoy building clean, responsive user interfaces and have a basic understanding of backend tools like Node.js and Express. I enjoy turning creative ideas into working web pages and improving my skills every day.

## WORK EXPERIENCE

### Freelance Frontend Developer

Self-Employed on Fiverr

2025-Continue

- Built custom landing pages and websites for clients
- Converted Figma/PSD/XD designs into fully responsive websites
- Worked on client feedback to improve website design and functionality

## SKILLS

### Frontend:

- HTML5, CSS3, JavaScript
- React.js, Redux, Redux Toolkit
- Tailwind CSS, Bootstrap, Material UI
- Responsive Design
- Figma to HTML/React Conversion

### Backend:

- Node.js
- Express.js
- PHP
- MySQL
- Laravel (Basic CRUD)

## PROJECTS

**1. Portfolio Website:** A personal website to show my work

**2. Gym Website:** A modern responsive website for a fitness brand, including trainer info, packages, and contact form.

**3. Bus Management System:** A DSA-based project with arrays and linked lists

**4. CRUD App in Laravel:** Create, Read, Update, Delete student records
